Representative Procedures in Quantitative Chemical Analysis (Classic Reprint) (Paperback)

By Frank Austin Gooch

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Representative Procedures in Quantitative Chemical Analysis This introduction to representative procedures in quantitative chemical analysis is an out-growth of long experience in the teaching of that subject. Inevitably it must reflect some characteristics of many predecessors, and to all of these the author desires to make every due acknowledgment of indebtedness. Procedures have been discussed in relation to their essential features, underlying principles, and varied applications. A large amount of space has been devoted to iodometric processes both on account of the beauty and accuracy of these methods, constantly growing in recognition, and because the treatment in the more elementary text-books is usually scanty. The arrangement of the subject matter is such as to permit the selection of a narrower course or a broader course, as may be desired, without detriment to the logical sequence of topics. Explicit directions are given for certain representative experimental processes, but if wider practice is desired the general description of related processes should make it possible to adapt to these the specific directions given for the representative experimental processes....
